

REF. **POOL PROTECTOR**

The POOL PROTECTOR fits into pipes of 1 ½" (50) and 2" (63). It is installed after the filter and before the saline chlorinator. It is equipped with an earth connection (required to be connected).

Recommended to review the installation and to replace it approx. once a year, depends of the wear.

CHEMICAL LEVEL TABLE OF THE CORRECT WATER:

PH	7,2 - 7,6 ppm
FREE CHLORINE	1 - 3 ppm
CHLORIDE	140 ppm
TOTAL ALKALINITY (TA)	100 - 150 ppm
CALCIUM HARDNESS (CH)	200 - 400 ppm
INDEX LANGUELLIER	-0,5 - 0,5 ppm (water balance)
